## MESSAGE FROM THE PRESIDENT

Greetings to all the readers! In this rapidly changing world, where many experiences and relationships often fade as we move forward to newer landmarks and achievements, I would like to take out some time and thank everyone who has been a part of this long journey. The

seeds of this institute were sown in 1989 in the IT hub of Kolkata- Sector V, Salt Lake. Since then, the students and staff have grown to become one of the best in the country producing jewels in various fields. Our extended ventures in Jaipur and Rajarhat are doing equally well. We have always focused on an all-round development and I am proud to say that this magazine has proved to be a fine example of the creativity of our students, be it poetry, painting, photography, dance or music. I wish all the readers the very best and hope they keep the institute flag high.

**-PROF. DR. SATYAJIT CHAKRABARTI  
PRESIDENT, IEM-UEM GROUP**

## MESSAGE FROM THE EDITORIAL DESK

It was an honour to be a part of the Editorial Team for Memories@IEM, the Alumni Magazine team. That being the Editors of a magazine could involve so many different aspects was something unknown to us back then. For months, we were floundering about, without a clue how to get this gigantic task done. There were months of missed deadlines, a plethora of new things that had to be learned, minute errors to find and correct, choices to make, and decisions to take. Being a part of the magazine was a daunting, yet enjoyable affair. Kudos to the fantastic team of incomparable talent. Thank you for helping us turn something we had always wanted to do into something we did. Thank you for giving us a venture so wonderful to look back on. A special shoutout to our respected Alumni, for their invaluable words and for sharing their precious moments with us. We would also like to thank Professor Sanghamitra Poddar for her constant support. This magazine was something that everyone enjoyed working on. And nothing could be a better reward than our readers enjoying it too.

These photographs serve as poignant reminders that the bonds I formed here will stay with me for a lifetime. This place, it holds the key to the person I've become, and the memories and connections forged during this time seem almost like a sweet, distant dream. College life, what made us realize the thrill of independence, the weight of responsibilities, It's a rollercoaster of emotions.

From the excitement of new beginnings to the stress of exams, where dreams take flight and friendship ignite. Here we celebrate not only the achievement, but also the challenges, its where every shared laugh at late-night conversations and inside jokes become a cherished memory that warms my heart every time.

IEM has given me more than i ever thought i deserve. Its not just a institute for me, but the place where i have become a different person, where i got some person that become my inspiration and a some become my family for life.

When I came here from afar, I had no idea that this place would become my second home one day!

- It is not so easy to write about my college life in 2-3 lines, but i will not drag too much. IEM was a place where not only i got the chance to learn academically but there was a lot of things i learnt which shaped me to a person I'm right now .Be it participating in all the college events and many were organised by me n my team & staying up all night in college, working with teachers and my friends . My college life started in 2nd year when I met Malay sir and SP ma'am and they made me feel like home. I enjoyed every bit of my college life with my seniors ,friends and juniors to treasure the memories. These 4 years of college life just went by in a flash. I was appointed as ' Vice President ' of Gymkhana student Body cell (2021-22)and also got the Best Student Performance Award. The entire journey of my college life is worth remembering and colourfull. I just want to thank my IEM family for every support and guidance i received from them.

“

Reflecting on my college days at IEM, attempting to encapsulate four transformative years into a few lines is no small task. Beyond the textbooks and lectures, IEM was a melting pot where academic learning blended seamlessly with life lessons, shaping the person I've become. Immersing myself in the orchestration of various college events, some led by my team, became a defining part of my experience. Whether burning the midnight oil with professors or collaborating with friends, each endeavor etched lasting memories. The pivotal moment in my college journey occurred in the second year when I encountered Malay sir and SP ma'am, who turned the campus into a welcoming home. My sincere gratitude extends to the IEM family for their unwavering support and guidance. Each day, challenge, and triumph left an indelible mark, making these years an invaluable chapter in my life's narrative. Here's to the vibrancy of my college journey, a unique palette that continues to paint my story with brilliance.

“

One day , college ends and all of us suddenly grow up and get on going with this wild world and amidst all this,you tell yourself that it's just a phase and you would long to go back and it doesn't happen .

It isn't that gloomy as it seems to be because the bond which happened here in IEM that meant the world to us, was not meant to fade away ,yes it's true that we don't sit with each other in the classroom and canteen every single day but wherever we are ,amidst all the chaos and struggles of being an adult ,we do miss those times spent with our friends and teachers in our dear college where responsibilities were a few, aspirations were high , pockets were empty and mind were full of mischiefs and innocence ,just a sudden thought of these memories,still brightens up our day.

A journey of four years of assignments ,exams , labs , lectures and events, we made some unbreakable bonds which almost feels like a family.

As I write this in front of my laptop with n- number of deliverables to be submitted at the end of the day in office , a small smile is glittering above my chin for all the memories gushing out in my mind when I write about this,

it makes me happy and and I consider myself to be lucky to have had a trolley full good memories in IEM, which I'll adore all my life.

”

**-Subhayan Saha**

“

The best view comes after the hardest climb, and college days were definitely a climb, but worth every moment. These 4 years let me be a part of this big family and honestly couldn't have asked for more. This pictures are the reminder that all the bonds built here is going to stay for this lifetime.
